Address of the consultant: 5 chemin des Gorges de Cabriès 13 127 VITROLLES FRANCE

Reference number and name of contract: CONTRACT Nº 003/ICUIP/UGPE/2023
Elaboration of the Pre-feasibility study for public-private partnership for the concession of the highway Praia-Tarrafal, Santiago Island Cabo Verde.

Method of Procurement/Selection: Consultant's Qualification based Selection (CQS).

Contract signature date: September 25, 2023.

Price: Euro 181 321.00 (One hundred and eighty-one thousand three hundred and twenty-one euros)

Duration: until March, 2023.

Summary scope of contract: The primary objective of this assignment is an analysis (technical, economic, financial) aims at providing the GoCV with elements that allow to take an informed decision regarding the viability, fiscal impact and elaboration of a PPP for a highway connecting Praia and Tarrafal, based on an early-stage identification and quantification of the concessionaire's potential sources of revenues, costs and risks, a "back-of-the-envelope" multicriteria cost-benefit analysis and a sizing of the potential fiscal impact for the GoCV. This analysis is really meant to provide initial orders of magnitude for decision making process, not to enter into detailed levels of technical studies and PPP-model feasibility. Once completed, this task should allow the GoD to decide on proceeding with a technical ("APD" level), economic, financial, environment and social feasibility study, and an eventual PPP project structuring.
