CLARIFICATION # 1

COUNTRY: CABO VERDE

PROJECT: COVID-19 EMERGENCY RESPONSE PROJECT

CONTRACT TITLE: Hiring a consultant to support the Ministry of Health in the preparation of the National Strategy of Digital Health, of the operational plan and the monitoring and assessment plan

Notice Number: EOI – 020/COVID19/UGPE/2024

Question nº 1: *First, I would like to express that, in my assessment, 120 days is a very short time for delivering all products with the quality, harmonization, and validation they deserve. In addition to the consulting work itself, there is a need for interaction with the project team in Cape Verde, as well as potentially other public and private actors, as proposed in the WHO Toolkit itself. I would like to know if you can consider extending the project to 180 days or at least 150 days.*

Answer 1: For the time being, the extension of the project is not considered. The Implementation of the consultancy is expected to be completed within the established timeframe on the terms of reference (ToR).

Question nº 2. *I would also like to know the salary range for consultants with a Ph.D. and more than ten years of experience developing digital health strategies.*

Answer 2: This information is not provided. After the evaluations of the Express of Interest received, the best-qualified Individual Consultant will be invited to submit the best technical and financial proposal as requested in the ToR.
